

# INPUT TRAY

## FOR CIRCULAR SIZE GRADER

Standard model

### FEATURES

- This tray is filled with water, as floating asparagus is easier to collect.

### TECHNICAL FEATURES

- The input process is optimised by a roller conveyor to store the crates.

### OPERATION

- The tray is adapted to the size of the crates.
  - A longer tray for CLA machines.
- Pre-soaking increases the efficiency of the washing machine.
- Drainage valve and supply valve.

### OUTPUT

- **Increases productivity** by around **20%** at the input area.

### SIZE

- On demand, depending on the size and number of crates.

### MAINTENANCE

- The equipment is made entirely from stainless steel.
- The water in the tray should be changed once a day.
