

CC XXL 4S

This compact model lets you cut, wash and size white or green asparagus.

Options : Input tray, recycling unit, water baths instead of standard output trays, diameter adjustment dials.

FEATURES

- Only one operator required.
Can be run by multiple people.
- Accurate grading: the asparagus is always measured at the same point.
- Double washing ramp: high and low.
- 16 sprayers with ceramic nozzles.
 - Unparalleled cutting.

TECHNICAL FEATURES

- Power supply: 220 V, single phase
- Total electric power: 0.75 kW
- Water inlet: 25 mm diameter
- Water outlet: 100 mm diameter
- Equipped with a speed control
- Water consumption: 1.5 m³/h at 3 bars

OPERATION

- The asparagus is deposited one by one into stainless steel cells.
- It is then cut to the desired length: 20 to 27 cm with a minimum size of 15 cm.
 - The asparagus is washed in the tunnel.
- It is then graded into 4 adjustable diameters (optional dials).
- Finally, it is placed into trays by the stalk.
 - It can then be collected by the operator.

OUTPUT

- With 2 operators (1 at input and + 1 at output):
 - 150 to 200 kg/h for white asparagus
 - 80 to 150 kg/h for green asparagus, depending on the average size of the asparagus.

SIZE

- Diameter: 1.80 m
- Height: 1.30 m
- Weight: 140 kg
- Size: 2 m x 2 m on the ground

MAINTENANCE

- The machine is made entirely from stainless steel.
- Low maintenance: simply grease the bearings.
 - Clean water wash.
 - The saw blade should be changed according to wear.
