

## MECHANICAL SORTING MACHINE

### MECA SELECT Single or Double

Fed by our CLA800 or CLA1500 cutting/washing machine for white or green asparagus.

Options: Roller conveyor for full crates, storage shelf for empty crates.

#### FEATURES

- This machine can sort asparagus into 3, 4 or 5 diameters depending on the chosen model.
- The asparagus is always measured at the same point to ensure consistent sorting.

#### TECHNICAL FEATURES

- Diameters set separately using indexed dials
  - Variable outputs (3 to 5)
  - Sturdy machine
- Total electric power: 4 kW
- Power supply: 230/400 V, three phase

#### OPERATION

- Fed by our CLA cutting/washing machine.
- The asparagus is fed in on a cleaned conveyor belt synchronised with the size grader.
- Grading is carried out according to the diameter set by the operator.
- The asparagus is collected on strategically positioned 0.30 m conveyor belts.
- The operator is left with the simple task of putting it into crates.

#### OUTPUT

- 18,000 asp/hour on a single line Number of operators: 2 to 5
- 36,000 asp/hour on a single line Number of operators: 4 to 7

#### SIZE

- Single line (3 outputs)
  - Total length with CLA800: 10 m
  - Width: 2.50 m
- Double line (3 outputs)
  - Total length with CLA800: 10 m
  - Width: 3.50 m

#### MAINTENANCE

- The machine is made entirely from stainless steel.
- Low maintenance: simply grease the bearings.
- Clean water wash.
