

FEATURES

- An innovative and powerful machine to handle a tedious task

TECHNICAL FEATURES

- Power supply: 220 V, single phase
 - Power: 0.37 kW
 - Speed control
- Requires a pneumatic supply

OPERATION

- Spools of mesh are loaded into the back of the machine.
- The desired length and number of mesh bags can be adjusted using the touchscreen.
- Switching on the machine starts the process automatically: unwinding the spool, stapling and cutting the mesh bag.

OUTPUT

- Approx. 5 mesh bags/min, depending on length.
- Max length: 4.50 m

SIZE

- Length: 5900 mm
- Width: 700 mm
- Height: 2000 mm

MAINTENANCE

- The machine is robust and made entirely from stainless steel.
- The bearings should be greased regularly.
