

EP2000 - 1 BELT

This machine is designed to package shellfish into pouches or bags according to a specific predefined weight.

FEATURES

- This machine transfers shellfish into pouches/baskets/mesh bags according to a set weight.

OUTPUT

- Up to 10 x 5 kg/minute
- Weighing accuracy: +/- 20 g (depending on the speed of the belt and the transition from high speed to low speed).

OPERATION

- A precise and powerful machine.
- Electronic speed control with potentiometer.
- A single cleaned conveyor belt to transfer shellfish into bags or pouches according to a set weight.
- The load is emptied and a new cycle begins when the hatch is opened by the infrared sensor.

MAINTENANCE

- The machine is robust and made entirely from stainless steel.
- PVC cleaned belt with stainless steel staples.

TECHNICAL FEATURES

- Power supply: 220 V, single phase
- Speed control on the belt and the hatch opening
- Power: 0.7 kW

SIZE

- Length: 2800 mm
- Width: 1000 mm
- Height: 2000 mm
