

## FEATURES

- Quality cleaning with two rows of beaters and two washing ramps.

## TECHNICAL FEATURES

- Power supply: 220 V, single phase
  - Power: 3 kW
  - Speed control
- Water inlet : ø50 mm

## OPERATION

- The bags are fed into the machine manually.
- They must be flipped to clean both sides.
  - Automatically ejected after washing.
- The height of the beaters is adjustable to compensate for wear.
- Each set of blades lasts for around 500 bags.

## OUTPUT

- Rate: 500 to 600 bags/hours depending on the condition of the bags.

## SIZE

- Length: 1900 mm
- Width: 900 mm
- Height: 2000 mm

## MAINTENANCE

- The machine is robust and made entirely from stainless steel.
- The bearings should be greased regularly.
