

To feed a sorting line

## FEATURES

- Large storage capacity to reduce the number of people required at the washing machine loading area.

## TECHNICAL FEATURES

- Power supply: 220 V, single phase
  - Power: 0.5 kW
  - Two speed controls

## OPERATION

- The storage tank, which can be submerged, is loaded by two or three people.
- The storage element is then activated to feed the washing machine.
- The speed of the storage element and washing machine are controlled independently.

## OUTPUT

- Storage capacity: 1 T to 3 T.
- Can be used to feed a sorting line

## SIZE

- Standard:
- Length: 4600 mm
  - Width: 2900 mm
  - Height: 2100 mm

## MAINTENANCE

- The machine is robust and made entirely from stainless steel.
- The bearings should be greased regularly.
